## Theatrical Architects.

Our Method of . . .  
Building Auditoriums,  
Patented . . . . .  
September 2, 1884 . .

Actor provided for as well as auditor.  
Ask the ladies and gentlemen in the profession what they think of our houses.  
Stage arrangements are equal to any in the country.  
The acoustics are always faultless.

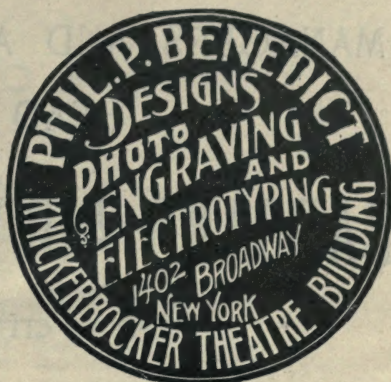

We show everything on the plans and specifications so minutely that nothing is left to the imagination. It gives the contractors an opportunity to figure intelligently on everything necessary for the building complete, and leaves no excuse for the usual BILL OF EXTRAS. We claim that we save you from 10 to 15 per cent. on account of the very completeness of our plans.

Our many theatres are giving the greatest of satisfaction. Not one poor seat in any one of our many houses. *For line of vision from auditorium to stage we claim our Theatres beat the world.*

A New Copyright Law for the State of New York, which went into effect September 1, 1899.

### Chap. 475.

AN ACT to amend the penal code of the State of New York, in relation to copyrights.

Became a law May 2, 1899, with the approval of the Governor. Passed, three-fifths being present.

*The People of the State of New York, represented in Senate and Assembly, do enact as follows:*

Section 1. The penal code of the State of New York is hereby amended by adding thereto a new section to be known as section seven hundred and twenty-nine, and to read as follows:

§ 729. Any person who causes to be publicly performed or represented for profit any unpublished undedicated or copyrighted dramatic composition, or musical composition known as an opera, without the consent of its owner or proprietor, or who, knowing that such dramatic or musical composition is unpublished, undedicated or copyrighted and without the consent of its owner, or proprietor, permits, aids or takes part in such a performance or representation, shall be guilty of a misdemeanor.

§ 2. This act shall take effect September first, eighteen hundred and ninety-nine.

Office of the Secretary of State, }  
STATE OF NEW YORK, } 38:

I have compared the preceding with the original law on file in this office, and do hereby certify that the same is a correct transcript therefrom and of the whole of said original law.

JOHN T. McDONOUGH,

*Secretary of State*

## Copyright Law of the United States.

Directions for securing copyright under the Revised Acts of Congress, including the provisions for foreign copyright, by Act of March 3, 1891.

Section 4,952 of the Revised Statutes of the United States, in force December 1, 1873, as amended by the act of June 18, 1874, as amended by the act of March 3, 1891, provides that the author, inventor, designer or proprietor of any book, map, chart, dramatic or musical composition, engraving, cut, print, or photograph or negative thereof, or of a painting, drawing, chromo, statuary, and of models or designs intended to be perfected as works of the fine arts, and the executors, administrators, or assigns of any such person, shall, upon complying with the provisions of this chapter, have the sole liberty of printing, reprinting, publishing, completing, copying, executing, finishing and vending the same; and, in the case of a dramatic composition, of publicly performing or representing it, or causing it to be performed or represented by others. And authors or their assigns shall have exclusive right to dramatize or translate any of their works for which copyright shall have been obtained under the laws of the United States.

### PRINTED TITLE REQUIRED.

A "printed" copy of the title of the book, map, chart, dramatic or musical composition, engraving, cut, print, photograph or chromo, or a "description" of the painting, drawing, statue, statuary, or model or design for a work of the fine arts, for which copyright is desired, must be delivered to the Librarian of Congress, or deposited in the mail, within the United States, "prepaid," addressed "Librarian of Congress, Washington, D. C." This must be done on or before day of publication in this or any foreign country.

The "printed title" required may be a copy of the title-page of such publications as have title-pages. In other cases, the title must be printed expressly for copyright entry, with name of claimant of copyright. The style of type is immaterial, and the print of a type-writer will be accepted. But a separate title is required for each entry, and "each" title must be printed on paper as large as commercial note. The title of a "periodical" must include the date and number; and each number of a periodical requires a separate entry of copyright. Blank forms of application are furnished to applicants.

### FEES.

The legal fee for "recording" each copyright claim is 50 cents, and for a "copy" of this record (or certificate of copyright under the seal of the office) an additional fee of 50 cents is required, making \$1, if certificate is wanted, which will be mailed as soon as reached in the records. No money is to be placed in any package of books, music or other publications. A bank check to order avoids all risk. In the case of publications which are the production of persons not citizens or residents of the United States, the fee for recording is \$1, and 50 cents additional for a copy of the record. Certificates covering more than one entry in one certificate are not issued. Bank checks, money orders and currency only taken for fees. No postage stamps received.

Not later than the day of publication in this country or abroad, two complete copies of the best edition of each book or article must be delivered, or deposited in the mail within the United States, addressed "Librarian of Congress, Washington, D. C.," to perfect the copyright.

The freight or postage must be paid, or the publications enclosed in parcels covered by printed penalty-labels, furnished by the Librarian, in which case they will come free by mail ("not express"), without limit of weight, according to rulings of the Post-Office Department. Books must be printed from type set in the United States or plates made therefrom; photographs from negatives made in the United States; chromos and lithographs from drawings on stone or transfers therefrom made in the United States. Without the deposit of copies above required, the copyright is void, and a penalty of \$25 is incurred. No copy is required to be deposited elsewhere.

The law requires one copy of each new edition wherein any substantial changes are made to be deposited with the Librarian of Congress.

### NOTICE OF COPYRIGHT.

No copyright is valid unless notice is given by inserting in every copy published, on the title-page or the page following, if it be a book; or if a map, chart, musical composition, print, cut, engraving, photograph, painting, drawing, chromo, statue, statuary, or model or design intended to be perfected as a work of the fine arts, by inscribing upon some portion thereof, or on the substance of which the same is mounted, the following words, viz.: "Entered according to act of Congress, in the year \_\_\_\_\_, by \_\_\_\_\_, in the office of the Librarian of Congress, at Washington," at the option of the person entering the copyright, the words: "Copyright, 18—, by—."

The law imposes a penalty of \$100 upon any person who has not obtained copyright who shall insert the notice, "Entered according to act of Congress," or "Copyright," etc., or words of the same import, in or upon any book or other article.

### TRANSLATIONS.

The copyright law secures to authors and their assigns the exclusive right to translate or to dramatize any of their works; no notice is required to enforce this right.

### DURATION OF COPYRIGHT.

The original term of copyright runs for twenty-eight years. Within six months before the end of that time, the author or designer, or his widow or children, may secure a renewal for the further term of fourteen years, making forty-two in all.

### RENEWALS.

Application of renewal must be accompanied by printed title and fee; and by explicit statement of ownership, in the case of the author, or of relationship, in the case of his heirs, and must state definitely the date and place of entry of the original copyright. Within two months from date of renewal the record thereof must be advertised in an American newspaper for four weeks.

### TIME OF PUBLICATION.

The time of publication is not limited by any law or regulation, but the courts have held that it shall take place "within a reasonable time." A copyright may be secured for a projected as well as for a completed work. But the law provides for no " caveat " or notice of interference—only for actual entry of title.

### ASSIGNMENTS.

Copyrights are assignable by any instrument of writing. Such assignment, to be

## COPYRIGHT LAW OF THE UNITED STATES—Continued.

valid, is to be recorded in the office of the Librarian of Congress within sixty days from execution. The fee for this record and certificate is \$1, and for a certified copy of any record of assignment \$1.

A copy of the record (or duplicate certificate) of any copyright entry will be furnished, under seal of the office, at the rate of 50 cents each.

### SERIALS OR SEPARATE PUBLICATIONS.

In the case of books published in more than one volume, or of periodicals published in numbers, or of engravings, photographs or other articles published with variations, a copyright must be entered for each volume or part of a book, or number of a periodical, or variety, as to style, title or inscription, of any other article. To "complete" the copyright on a book published serially in a periodical, two copies of each serial part, as well as of the complete work (if published separately), should be deposited.

### WORKS OF ART.

To secure copyright for a painting, statue, or model or design intended to be perfected as a work of the fine arts, a definite title and description must accompany the application for copyright, and a mounted photograph of the same, as large as "cabinet size," mailed to the Librarian of Congress not later than the day of publication of the work or design. The fine arts, for copyright purposes, include only painting and sculpture, and articles of merely ornamental and decorative art should be sent to the Patent Office, as subjects for Design Patents.

### TRADE-MARKS.

Copyrights cannot be granted upon trademarks, nor upon names of companies, libraries or articles, nor upon an idea or device, nor upon prints or labels intended to be used for any article of manufacture. If protection for such names or labels is desired, application must be made to the Patent Office, where they are registered, if admitted, at a fee of \$6 for labels and \$25 for trade-marks.

### FOREIGN AUTHORS.

The provisions as to copyright entry in the United States by foreign authors, etc., by act of Congress approved March 3, 1891 (which took effect July 1, 1891), are the same as the foregoing, except as to productions of persons not citizens or residents, which must cover return postages, and are \$1 for entry, or \$1.50 for entry and certificate of entry (equivalent to 4s. 5d. or 6s. 7d.). All publications must be delivered to the Librarian at Washington free of charge. The fee penalty-labels cannot be used outside of the United States.

The rights of the citizens or subjects of a foreign nation to copyright in the United States extend by Presidential proclamations to Great Britain, France, Belgium, Switzerland, Germany, Italy, Spain, Denmark, Portugal, Mexico and Chile, and Americans can secure copyright in those countries. For this direct arrangements must be made abroad. The Librarian of Congress cannot take charge of any copyright business.

Every applicant for a copyright should state distinctly the full name and residence of the claimant, whether book or other publication, and whether the right is claimed as author, designer or proprietor. No affidavit or witness to the application is required.

## CONDITIONS AS TO COPYRIGHT FOR AMERICAN CITIZENS IN FOREIGN COUNTRIES.

International copyright arrangements between the United States and foreign countries now include Great Britain and her possessions, France, Germany, Italy, Spain, Portugal, Belgium, Denmark, Switzerland, Mexico and Chile.

For an American citizen to secure copyright in Great Britain three conditions are necessary:

First—The title should be entered at Stationers' Hall, London, the fee for which is 5 shillings sterling, and 5 shillings additional if a certified copy of entry is required.

Second—The work must be published in Great Britain or in her dominions simultaneously with its publication in the United States.

Third—Five copies of the publication are required—one for the British Museum and four on demand of the Company of Stationers for four other libraries.

Copyright may be secured in France by a foreigner by depositing two copies of the publication at the Ministry of the Interior at Paris. No fee or entry of title required.

To secure copyright in Belgium a foreigner may register his work at the Department of Agriculture, Industry and Public Works at Brussels.

In Switzerland, register of title at the Department of Commerce and Industry at Berne is optional, not obligatory; fee two francs. If registered, deposit of one copy is required.

Copyright in Canada is to be registered with the Minister of Agriculture at Ottawa, fee \$1 for registry and 50 cents for certificate, and the work to be published in Canada and two copies deposited.

## Infringement of Copyright.

The Librarian of Congress makes the following statement to inquiries as to remedies for infringement of copyright:

No question concerning the validity of a copyright can be determined under our laws by any other authority than a United States court.

This office has no discretion or authority to refuse any application for a copyright coming within the provisions of the law, and all questions as to priority or infringement are purely judicial questions, with which the Librarian has nothing to do. A certificate of copyright is prima facie evidence of an exclusive character, and is highly valuable as the foundation of a legal claim to the property involved in the publication.

As no claim to exclusive property in the contents of a printed book or other article can be enforced under the common law, Congress has very properly provided the guarantees of such property, which are embodied in the "Act to revise, consolidate and amend the statutes relating to patents and copyrights," approved July 8, 1870. If you obtain a copyright under the provisions of this act, you can claim damages from any person infringing your rights by printing or selling the same article; but upon all questions as to what constitutes an infringement, or what measures of damages can be recovered, all parties are left to their proper remedy in the courts of the United States.

## An Act Relative to Musical and Dramatic Productions.

To amend Title Sixty, Chapter Three, of the Revised Statutes relating to copyrights.

Be it enacted in the Senate and House of Representatives of the United States of America, in Congress assembled, That section forty-nine hundred and sixty-six of the Revised Statutes be, and the same is hereby, amended so as to read as follows:

Sec. 4966. Any person publicly performing or representing any dramatic or musical composition for which a copyright has been obtained, without the consent of the proprietor of said dramatic or musical composition or his heirs or assigns, shall be liable for damages therefor, such damages in all cases to be assessed at such sum not less than one hundred dollars for the first and fifty dollars for every subsequent performance as to the court shall appear to be just. If the unlawful performance and representation be willful and for profit, such person or persons shall be guilty of a misdemeanor, and upon conviction be imprisoned for a period not exceeding one year. Any injunction that may be granted upon hearing after notice to the defendant by any Circuit Court of the United States, or by a judge thereof, restraining and enjoining the performance or representation of any such dramatic or musical composition, may be served on the parties against whom such injunction may be granted anywhere in the United States, and shall be operative and may be enforced by proceedings to punish for contempt or otherwise by any other Circuit Court or judge in the United States; but the defendants in said action, or any or either of them, may make a motion in any other circuit in which he or they may be engaged in performing or representing said dramatic or musical composition, to dissolve or set aside the said injunction upon such reasonable notice to the plaintiff as the Circuit Court or the judge before whom said motion shall be made shall deem proper; service of said motion to be made on the plaintiff in person or on his attorneys in the action. The Circuit Courts or judges thereof shall have jurisdiction to enforce said injunction and to hear and determine a motion to dissolve the same, as herein provided, as fully as if the action were

pending or brought in the Circuit in which said motion is made.

The clerk of the court, or judge granting the injunction, shall, when required to do so by the court hearing the application to dissolve or enforce said injunction, transmit without delay to said court a certified copy of all the papers on which the said injunction was granted that are on file in his office.

Passed the Senate May 20, 1896.

Attest: WM. R. COX, Secretary.

House also.

Signed by President, January 5, 1897.

Sec. 596. Tariff Act 1890-1894 is as follows, and should be adhered to as closely as possible. The indications are that the new tariff bill, which is now pending before Congress, will be practically the same as the present law:

Professional books, implements, instruments and tools of trade, occupation or employment, in the actual possession at the time of persons arriving in the United States; but this exemption shall not be construed to include machinery or other articles imported for use in any manufacturing establishment, or for any other person or persons, or for sale, nor shall it be construed to include theatrical scenery, properties and apparel, but such articles brought by proprietors or managers of theatrical exhibitions arriving from abroad for temporary use by them in such exhibitions, and not for any other person, and not for sale, and which have been used by them abroad, shall be admitted free of duty under such regulations as the Secretary of the Treasury may prescribe; but bonds shall be given for the payment to the United States of such duties as may be imposed by law upon any and all such articles as shall not be exported within six months after such importation; provided, that the Secretary of the Treasury may in his discretion extend such a period for a further term of six months in case application shall be made therefor.

## Duties upon Theatrical Properties, Costumes, etc.

The following conditions must be observed to bring Theatrical Properties, Costumes, etc., into the United States:

The Customs Laws permit the entry "Free of Duty" of Scenery, Properties and Costumes [brought by Proprietors or Managers of Theatrical Exhibitions, arriving from abroad for temporary use in this country, and which have been used abroad by them] under bond, that they will be exported within six months, although this period is often extended by the Secretary of the Treasury.

Scenery should be numbered with serial numbers, 1, 2, 3, 4, etc., and described in the invoice or list opposite the serial number.

Properties, when packed in cases, should be numbered, and the invoice, or list, should

state plainly the contents of each case by number; when not packed in cases or crates, serial numbers should be used same as on Scenery.

Costumes should be packed in cases, baskets or trunks, marked and numbered with serial number, and the list, or invoice, should state the number and style of costumes in each package and the value.

Costumes are not entitled to free entry under this law, unless they have been used abroad by the company importing them.

Wearing apparel belonging to the members of the company should be kept entirely separate from the costumes, and not mentioned in the list or invoice, as no duty will be charged on wearing apparel accompanying the owner.

CHICAGO, ILL., 1901.

### *To Managers of Theatrical Companies:*

We beg to announce that this Company makes a specialty of

**Transferring Theatrical Baggage and Properties  
between Railroad Stations, Theatres and Hotels**

and that it is now performing such service in a prompt, careful and satisfactory manner. The patronage of Theatrical Companies coming to, or passing through Chicago, is solicited to give us a trial.

Without reference to a large number of baggage wagons, attention is called to the fact, that we have had built several large 40 foot trucks, especially adapted to hauling "drops" scenery and other effects, and added to these is a number of flat and stake wagons.

Orders may be left at **Ticket Offices** of any of the following Hotels in Chicago:

## New St. Charles Hotel,

ANDREW R. BLAKELY & CO. Ltd., Proprietors.

NEW ORLEANS

**ABSOLUTELY FIRE-PROOF.**

**T**HE completion of the addition to the New St. Charles makes it one of the largest, as well as one of the best Hotels in the country.

There are 500 rooms, single and en suite, with 150 private Bath rooms, accommodating 700 guests.

The addition, like main building, is absolutely fire-proof. Turkish and Russian Baths of Italian marble, and handsomely furnished, have been added, making the St. Charles complete in every detail for comfort and luxury.

The drinking water is filtered, distilled and aerated, and the ice made from it, both perfectly pure.

An open air promenade on parlor and dining-room floor gives a delightful lounging place among tropical plants and shrubbery in sunshine or shade.

Kept on both American and European plans at moderate prices.

Special rates are made to commercial travelers and the theatrical profession.

# New York Dramatic News

THE OFFICIAL ORGAN OF THE THEATRICAL PROFESSION

Its staff includes the best theatrical writers in America and abroad.

Its circulation is the largest of any theatrical paper.

An advertisement in the *New York Dramatic News* brings results.

It is the only theatrical paper accepted in the first-class theatres, and it is the only theatrical paper read by the entire profession.

ADDRESS..... NEW YORK DRAMATIC NEWS

EDWIN S. BETTELHEIM, FREDERIC EDWARD McKAY,

Broadway Theatre Building, New York

## TWO ENDORSEMENTS OUT OF MANY HUNDREDS

"You can say from me that I consider the *Dramatic News* the official Dramatic organ of this country, and I hope it will receive the encouragement of professionals in every way, including advertisements.

"It is the only dramatic paper whose columns I refer to when looking for people who are unemployed, and advertising of any description receives my personal attention. I am pleased to encourage a dramatic paper that has no interests outside of the paper itself; such a paper is therefore beneficial and healthy to the profession."

CHARLES FROHMAN.

"We are impelled to the conclusion that the *Dramatic News* is the Dramatic organ of the theatrical profession in this country, and we always seek its columns for the cards of actors and actresses at liberty. We are glad to give you this endorsement, because we know that the *Dramatic News* is not sponsor for any star or attraction, and can therefore print the news without fear or favor."

Yours truly,

KLAW & ERLANGER.

## MEXICO.

Mexico is undoubtedly a coming theatrical field for recognized and worthy operatic, spectacular and musical attractions, as the theatre-goers are appreciative and pay liberally for meritorious entertainments. The theatres are now mostly controlled by sharing managers, the newspapers generous with space, and the railroads make rates of 1½ to 2 cents a mile for parties of five or more, and are controlled and operated by Americans of broad and liberal views. The duty on printing taken into Mexico from the United States has lately been withdrawn, although now in a few cities a small tax or nominal charge is made for the privilege of billing and advertising. The laws of Mexico are very rigid regarding theatrical advertising; every scene and act must be produced as represented, failure of which is subject to a heavy fine by the Governor of the city.

## CHANGES RECEIVED TOO LATE FOR CLASSIFICATION.

PORTLAND, ME.—The beautiful Jefferson Theatre, one of the handsomest theatres in the United States, will be entirely refurnished and redecorated by the owners this coming summer.

BUTTE, MONT.—The Grand Opera House is quoted twice through an error of Mr. Sutton in sending in his information, and when the error was discovered

the book was paged and too late to change.

LACONIA, N. H.—William B. Van Dusen is the manager of the Mouton Opera House, instead of the name quoted.

CONNELLSVILLE, PA.—R. N. McCormick is manager of Connelville Opera House
